Subject: REEA - Testimonial

Hi Bruce,

Testimonial as discussed.

Kind regards,
Amber

I cannot recommend joining the Real Estate Employers Association (REEA) highly enough; their professional advice and up-to-date knowledge has been invaluable to me since the inception of my own company and beyond.

In fact, I am so impressed that I have now made it a requirement that all future Amber Werchon Property franchisees become a member also, so that they too can benefit from the services offered.

As an employer the ever-changing and somewhat complex legislation relating to human resource issues can be overwhelming, and I am ever mindful of the repercussions of any kind of impropriety in this area. Anytime I have needed clarification on a HR issue, no matter how minor, Bruce has been quick to get back to me with accurate information so that I am equipped with the information needed to make whatever decision is required.

The membership fee is very reasonable and well worth it, especially to ensure that your business has access to information and assistance which could ultimately protect you from litigation and ensure the integrity of your dealings with your employees is meeting the industry standard/requirements.

I am happy to discuss the benefits of membership further with anyone who wants to contact me personally.
